SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using Django for backend development and React.js for dynamic frontend interfaces. Strong foundation in Python, SQL, and core computer science concepts.

EDUCATION

Master of Computer Applications (MCA)
Bangalore Institute of Technology

Feb 2024 – Sep 2025
CGPA: 8.2/10

Bachelor of Science (BSc)
Vijaya College, Bengaluru

Sep 2020 – Sep 2023
CGPA: 7.6/10

TECHNICAL SKILLS

Languages: Python, SQL

Web Technology: React.js, HTML5, CSS3, JavaScript

Database: Oracle SQL,

Core Concepts: Object Oriented Programming

Tools: Git, GitHub, VS Code.

PROJECTS

Audio to Sign Language Translator (Django-Based Web Application)

- Developed an NLP-based web application using Django framework that converts speech input into animated sign gestures.
- Implemented request handling logic in views.py and configured URL routing in urls.py.
- Integrated frontend interface with backend using HTML5, CSS3.
- Implemented speech-to-text pipeline using Python Speech Recognition library.
- Applied NLP preprocessing techniques (tokenization, lemmatization, phrase mapping) using NLTK.
- Performed database migrations and implemented validation and error handling mechanisms.

PUBLICATIONS

Thesis: Audio-to-Sign Language Translator Published in International Journal of Scientific Research in Engineering and Management (IJSREM), Volume 09, Issue 08, August 2025.

CERTIFICATIONS

Python – NICT

Python FullStack – Pyspiders
